Giza, Egypt (Open to Relocation)

PROFESSIONAL SUMMARY

Flutter Developer with two years building and shipping cross-platform mobile apps in Flutter and Dart, including live iOS applications published on the App Store. Strong in REST API integration, Firebase, and Bloc/Cubit state management, applying Clean Architecture and MVVM to deliver responsive, high-performance, maintainable UI from a single shared codebase. Comfortable owning a feature end to end, from API contract and state design through to release, and collaborating through a Git feature-branch workflow.

PUBLISHED APPLICATIONS

- **Yama Vet** - live on the Apple App Store | apps.apple.com/app/id6476448659
- **Yama Admin** - live on the Apple App Store | apps.apple.com/app/id6477798681

PROFESSIONAL EXPERIENCE

Flutter Developer
Arrow Tech — 09/2024 - Present — Remote

- Developed and maintained cross-platform Flutter apps for Android and iOS from a single shared codebase, with responsive UI holding up across screen sizes and form factors.
- Integrated REST APIs using Dio with centralized error handling, request interceptors, and token-based authentication including refresh handling.
- Implemented Firebase Authentication, Cloud Firestore, and Storage with real-time data sync and offline support.
- Managed application state with Bloc and Provider following Clean Architecture and MVVM, keeping business logic testable and independent of the UI layer.
- Shipped releases to the Apple App Store, handling build configuration, store submission, and post-release fixes.
- Collaborated through a Git feature-branch workflow with code review before merge.

SELECTED PROJECTS

- **Almofid Center - Education Centre Management System** - Flutter Desktop (Windows), Node.js, Express, MongoDB
  Arabic RTL Windows desktop system running an education centre end to end across 26 screens: students, groups, attendance, exams and grade entry, accounts and payments, and reports. Integrated with a Node/Express and MongoDB backend through a Dio API layer with JWT injection, role-based permissions, and auto-logout on expiry; delivered to the client as a packaged MSIX installer.
- **Mr Mohammed Ahmed - Teacher & Parent Portal** - Flutter, Bloc, Firebase Firestore, FCM
  Role-based tutoring app where one access code decides the experience: a teacher code opens a management dashboard for groups, students, and exam grades, while a student code opens a parent follow-up view covering attendance, exams, homework, payments, and performance ratings. Cloud Firestore backend with FCM push notifications, Arabic localization, and offline connectivity handling.
- **Sofrety - Food Delivery App** - Flutter, Bloc, Firebase, OpenStreetMap, Payment Gateway
  Cross-platform food-ordering app with online payment, map-based address selection, cart, and favorites; state managed with Bloc/Cubit.
  Code: github.com/taha2901/food_delivery_app
- **SallaX (سلة) - E-Commerce App** - Flutter, Bloc, SQLite, REST API
  Full e-commerce app with authentication, product catalog, cart, watchlist, and payment; REST API integration backed by SQLite local persistence.
  Code: github.com/taha2901/ECE
- **Beitna (بيتنا) - Budget & Expense Manager** - Flutter, SQLite, Local-First, PDF Export
  Privacy-first, offline household budget manager storing all data locally with no external servers, including PDF export for reports.
  Code: github.com/taha2901/beitna
- **E-Learning Platform** - Flutter, Supabase, REST API, Video Streaming
  Udemy-inspired learning app with course browsing, a custom video player, progress tracking, and certificate generation, on a Supabase backend.
  Code: github.com/taha2901/E-Learning-App

EDUCATION

B.Sc. in Computer Science
Faculty of Computers and Information | Assiut University, Egypt | 2020 - 2024 | Grade: Very Good

TECHNICAL SKILLS

Languages: Dart, C#, Python, Java, C++
Platforms: Flutter (Android, iOS, Windows Desktop), Responsive UI, Animations, Material & Cupertino
State Management: Bloc, Cubit, Provider
Backend & APIs: REST APIs, Dio, Firebase (Auth, Firestore, Storage, FCM), Supabase, ASP.NET
Databases: SQLite, Hive, Firestore
Architecture: Clean Architecture, MVVM, SOLID Principles
Tools: Git & GitHub, Google Maps SDK, Postman, Android Studio, VS Code, CI/CD
Also: Cross-Platform Development, API Integration, Push Notifications, Payment Integration, App Store Deployment

LANGUAGES

- Arabic - Native
- English - Intermediate

SOFT SKILLS

Problem Solving | Clean Code | Attention to Detail | Communication | Teamwork | Code Review | Self-Learning | Ownership
